Blended Working Arrangements

HIQA has introduced blended working to offer more flexible working arrangements to all employees. We aim to strike a balance between being flexible, efficient, and resilient by facilitating blended working where practical, while enabling onsite interaction, collaboration, and support as required.

All roles in HIQA have been assessed under the criteria of business needs and role suitability for blended working. This determined the proportion of time that employees will spend working in HIQA offices and working from home, depending on their role.

Depending on the role, there may be a requirement to attend the office for more than the allocated number of days for training and on-boarding purposes at the start of your employment and during the probation period.

A review of our blended working model confirmed that this model is working well in HIQA therefore we are now moving from Interim Blended Working to a long term Blended Working Model. Our existing policy and documentation will be revised and

updated once the framework for the Work-Life Balance and Miscellaneous Provisions Act is published. Our model is in line with the Civil Service Framework for Blended Working in Ireland.

Further guidance on HIQA's Blended Working Policy, which includes eligibility criteria will be issued to successful candidates. This is an opt-in policy and details on how you can apply will be issued to you before you start.

Selection Process

The Health Information and Quality Authority will convene a selection panel to carry out the competitive stages of the selection process to the highest standards of best practice.

The approach employed may include:

- A shortlisting of candidates, on the basis of the information contained in their application
- One or more competitive competency-based interview
- Completion of assessments
- Presentation or other exercises
- Any other tests or exercises that may be deemed appropriate.

Please note the role competency overview referred to in the above role description. This will assist you when completing the application form and preparing for the competency based interview.

The number of applications received for a position generally exceeds that required to fill existing and future roles. While a candidate may meet the eligibility requirements of the competition, if the numbers applying for the role are such that it would not be

practical to progress all candidates to the next stage of the selection process, HIQA may decide that a smaller number of candidates based on order of merit from shortlisting may be called to the next stage of the process.

HIQA will conduct a shortlisting process to select a group who, based on an examination of the application forms, appear to be the most suitable for the role. This is not to suggest that other candidates are necessarily unsuitable or incapable of undertaking the job, rather that there are some candidates, who based on their application, appear to be more qualified and/or have more relevant experience.

The applications will be shortlisted by a selection panel. They will examine each application form against the essential shortlisting criteria (outlined in the role description above) and the Evidence of Competencies section on the application form.

The onus is on candidates to establish eligibility for the role, therefore it is in each candidate's interest to provide a detailed and accurate account of their qualifications, experience and Evidence of Competencies as requested on the application form.

Competition updates will be issued to the email address as entered on the application form.

The onus is on each candidate to ensure that they are in receipt of all communication. Candidates are advised to check emails on a regular basis throughout the duration of the competition; in addition, being sure to check junk/spam folders should any emails be mistakenly filtered. HIQA accepts no responsibility for communication not accessed or received by a candidate.

Interview Dates

The onus is on all candidates who are shortlisted for interview to ensure they are available for interview on the identified date.

Interview Expenses

The Health Information and Quality Authority will not be responsible for any expense, including travelling expenses that candidates may incur in connection with their application for this post.

Panels

In the first instance HIQA will create a panel for an anticipated future permanent vacancy that will arise.

- knowingly or recklessly provide false information;
- canvass any person with or without inducements;

Until all stages of the recruitment process have been fully completed a final determination cannot be made nor can it be deemed or inferred that such a determination has been made.

Should the person recommended for appointment not accept the appointment, or, having accepted it, relinquish it, HIQA may at its discretion, select and recommend another person for appointment on the results of this selection process.
